SUMMARY

UI/UX Designer with 5+ years of experience designing and delivering 50+ responsive web and mobile applications across government, education, e commerce and travel industries. Skilled in User Experience (UX) Design, User Interface (UI) Design, Wireframing, Prototyping, and Usability Testing. Proficient in Figma, Adobe XD, Sketch, HTML5, CSS3, Tailwind CSS, Bootstrap, and Responsive Design. Adept at creating user-centered designs, interactive prototypes, and front-end implementation that enhance usability, accessibility (WCAG), engagement, and brand consistency.

WORK EXPERIENCE

Velocis Systems Private Limited

June 2024 - Present

- Redesigned Research Center of Biotechnology (RCB) website – Improved performance with 98/100 Google PageSpeed (mobile) and boosted session duration by 38% through optimized UI/UX design, responsive layouts, and accessibility (WCAG 2.1).
- Developed NHIDCL web application UI in Figma – Built design system, interactive prototypes, and reusable components; collaborated with developers for front-end implementation using HTML5, Tailwind CSS, and Bootstrap (project in progress).
- Designed & developed DHC website and mobile application – Delivered pixel-perfect, responsive UI coded in HTML5, CSS3, JavaScript, ensuring seamless alignment with Figma prototypes.
- Created responsive UI/UX for NCHMCT portal and 6+ government microsites – Enhanced cross-browser compatibility, task completion rates (+25%), and digital adoption.
- Led UI/UX design for RCS Mizoram, RCS Ladakh, RCS Daman, and RCS Chhattisgarh projects – Designed wireframes, dashboards, and high-fidelity prototypes to support government digital transformation initiatives.
- Designed & developed National Investigation Agency (NIA) portal – Built in Figma and implemented with HTML5, CSS3, and JavaScript, featuring multi-color theme mode, accessibility compliance, and optimized navigation.
- Designed National Mountain Authority (NMA) portal – Created landing page, dashboard, and multi-inner pages with scalable design system, improving information architecture and usability.
- Delivered multiple government and education portals – Specialized in user research, usability testing, prototyping, and front-end development, ensuring designs were user-centered, responsive, and aligned with brand guidelines.

JKM GLOBAL SERVICES PVT LTD.

May 2022 - June 2024

- Developed complete brand identity and responsive websites for InsaaF99 and Nista Holidays – Designed user-centered interfaces, wireframes, and high-fidelity prototypes using Figma. Optimized UX, boosting conversion rates by 23% across web and mobile platforms.
- Produced 120+ marketing assets including banners, icons, and videos for campaigns – Leveraged Adobe Photoshop, Illustrator, Adobe Premiere Pro, improving social media click-through rates by 40%.
- Standardized design system across websites and marketing materials – Implemented component libraries, typography, and color schemes reducing new page build time from 8 hours to 3 hours, ensuring consistency, scalability, and faster delivery.
- Collaborated with developers and marketing teams to align design implementation with front-end code using HTML5, CSS3, Tailwind CSS, and Bootstrap, ensuring pixel-perfect execution and responsiveness.
- Conducted user research, A/B testing, and usability evaluations to refine designs, enhance user engagement, task success, and brand consistency.

SCUBE MEDIA CONNECT PVT LTD.

March 2021 - April 2022

- Designed university and payroll portals – Created responsive web applications using HTML5, CSS3, and Bootstrap, ensuring full mobile responsiveness, cross-browser compatibility, and WCAG AA accessibility compliance.

- Delivered 150+ promotional graphics including banners, icons, and social media visuals – Optimized workflow, reducing outsourced design costs by 60%, and improving overall team efficiency.
 - Collaborated with developers and stakeholders to translate UI/UX designs into functional front-end components, maintaining pixel-perfect accuracy and consistency with design systems.
 - Conducted basic usability testing and design iterations to enhance user experience, task success, and engagement metrics.
-

EDUCATION

Master of Computer Application (MCA)

2019-2021

- Integrated Academy Of Management And Technology Ghaziabad

Bachelor of Computer Application (BCA)

2016-2019

- Dewan Institute Of Management & Technology Meerut
-

TECHNICAL SKILLS

- **Design & UX Tools:** UI/UX Design, Figma, Adobe XD, Photoshop, Illustrator, CorelDRAW, Adobe Premiere Pro
 - **Front-End Development:** HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, jQuery, React(Basic).
 - **Frameworks & Other Tools:** CodeIgniter, Responsive Design, Wireframing, Prototyping, Design Systems.
-

LANGUAGES

English (Fluent), **Hindi** (Native)

KEY ACHIEVEMENTS

- Successfully designed and launched 50+ responsive websites and mobile applications for government, education, e-commerce, travel, and corporate domains.
- Delivered user-centered, accessible, and high-performing designs that improved engagement, task success, and conversion rates.
- Reduced project turnaround time and outsourcing costs by optimizing design workflow and standardizing design systems.
